JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

for the investigation of hypertrichiasis, from a person whose name is for the present withheld. A committee in charge of the grant has been appointed, consisting of the dean, Dr. G. Canby Robinson; Dr. M. F. Engman, of the department of dermatology, to whom the grant was proposed, and Dr. Charles H. Danforth, of the department of anatomy, who will carry on the investigation which will be chiefly in the fields of anthropology and heredity.

A "ROOSEVELT Institute of American Family Life," to be developed in connection with the eugenics record office of the Carnegie Institution, in Washington, has been proposed to the Roosevelt Permanent Memorial National Committee by the Eugenics Research Association of Cold Spring, Long Island. The association in outlining the project explains that it owns eighty acres of land in Roosevelt's own voting district, and has already laid the foundation for the study of the factors controlling American family life. In the announcement, which proposes the erection of the memorial institute at Oyster Bay, the association declares: "This memorial institute will strive to advance those ideas of responsible and patriotic parenthood for which Theodore Roosevelt so valiantly battled." In addressing the national committee the association wrote: "We respectfully call your attention to the following factors which contribute to the fitness of this suggestion: The Roosevelt memorial should, like the man in whose memory it is built, battle for the advancement of the eugenical ideal in American family life. It should be located in Roosevelt's own neighborhood. The safety of the foundation fund could be absolutely secured by placing it as trust with the Carnegie Institution of Washington. Its proximity to New York City makes the Oyster Bay neighborhood an exceptionally fitting place for the institute."
